

REMARKABLE CATCH.

Halibut Fare of Sch. E. E. Gray Taken on Scatteri.

First Big Haul of These Fish There for Years.

One of the most remarkable fishing trips for many years was that just completed by sch. Elmer E. Gray, Capt. Val O'Neil, which arrived at Boston Wednesday from the Scatteri grounds with 30,000 pounds of salt cod, and 55,000 pounds of fresh halibut. The remarkable part of it is that such a large haul of halibut, one of the largest from any bank for several months, should have been taken on the great codfishing grounds off Scatteri, where a halibut fare of any size has not been taken for fully 15 years.

The trip and the place of catching was the subject of much comment among vessel owners and the fishermen there and those who keep well posted in the halibut business say that it is over 15 years since a trip of halibut has been caught on this ground. They think that Capt. O'Neil must have set right on a big school of halibut which was passing over this ground on its way to some familiar bank.

Newfoundland Fishermen Not Barred Here.

The St. John's, N. F., Herald says:

"As we predicted, the report that our pogie fishermen would not be allowed on American vessels this year because of our recent enactment, proves to be untrue, having grown out of a message to some 'down the shore' men not to come last week but to be along by June 6. They leave by next Rosalind."

The porgy steamer Promised Land, one of the fleet of the American Fisheries Co., is said to have made a haul yesterday or last night off Montauk Point of 170 barrels of large mackerel and shipped the fish from Montauk to the dealers at Fulton Market, New York. This is the first haul of mackerel made to the southward for some time.

Capt. Robert Porper of sch. Cavalier reports encountering fog and bad weather coming up the Cape Shore and saw no mackerel or seiners.

POLLOCK SEINING.

Nova Scotia Port Has Two Schooners in the Business.

Nova Scotia has two fine schooners in the pollock seining fishery this season, sch. Terence C. Lockwood and sch. Springwood, both owned by William McMillan of Lockport and both of which have been to this port with fish cargoes.

The vessels are fitted with seineboats and seines, as are the regular mackerel seiners, only the seines are heavier, and the fish are taken in the same way, the vessels operating in the shoal water along the sandy bottom, close in to Sable Island.

This is the fishery which was initiated by sch. Maxine Elliott, Capt. Alden Geel, of this port in the spring of 1904. Last year Nova Scotia had one vessel in the fishery, a craft from Lockport, and she did quite well.

First Shad

The first shad of the season hereabouts were taken on Thursday in Tarr's trap at Kettle Island and shipped to Boston. There was a barrel in all.

The captains of the porgy boats report that there were no mackerel seiners there when they got the fish, but they left other porgy steamers there working on schools of fish.

There are a few netters at Newport today with very few fish.

A special to the Times from its New York correspondent says that Capt. Brooks of the seiner Bertha and Pearl, which arrived at Fulton Market dock this morning with 6100 large fresh mackerel in count, reports seeing about 15 small schools of fish off Fire Island last night, where he made his haul. The schools were very wild and chasing live feed.

The mackerel netters at New York today report fish very scarce. One netter set 60 nets and caught but seven mackerel.

A letter to the Times from one of the Cape Shore seiners, dated at Turner's Bay, N. S., on Wednesday, says that schs. Victor, Nellie Dixon, Catherine G. Howard, Arthur Binney, Norma, Robin Hood, Argo, Metamora, Orinoco, Harvard, Mary T. Fallon, Monarch, Manhasset, Priscilla Smith, Speculator, Electric Flash, Grayling, Mary E. Hart, A. M. Nicholson and about 10 others there for harbor.

The weather was bad and foggy. There had been a gale about every day and when the vessels came in it was blowing very heavy. There are a few mackerel going and some small schools off Sambro and Prospect. The netters at Turner's Bay are getting from 60 to 200 mackerel in their nets daily. If the weather comes good it looks good down here for a trip of fish.

A sad accident happened just after the fleet arrived, a boat containing a father and two sons named Martin, while coming in from the nets, striking a rock about two hundred yards from their house and overturned. The father succeeded in getting on a rock and saved himself, but the sons were drowned in two fathoms of water.

The same letter states that two of the crew of the seining sch. Monarch went astray in their dory, but that they were probably picked up by one of the fleet of seiners which went into Halifax for a harbor.

The porgy steamers at Newport yesterday landed 1000 barrels of large fresh mackerel. This makes about 2000 barrels these steamers have landed in three days.

Sch. Mattakesett, Capt. John O'Brien, of Boston is at Newport this morning with 125 barrels of large fresh mackerel.

Sch. William H. Cross, Capt. Solomon A. Rowe, arrived home from south mackerel seining yesterday. Capt. Rowe reports lots of fish out that way but that it was next to impossible to stop a school. On the way home, he passed sch. Monitor, bound out there. Capt. Lyle told him that there were lots of schools off Pollock Rip and that he had stayed and worked on them, but that they were very wild and could not be caught.
